

TARIK BOUKJIJ

Web Developer

+212-689-385-061 • tarikboukjj@gmail.com • Morocco, Mohammedia
<https://www.linkedin.com/in/tarik-boukjj/>

Web Developer and IT Specialist with over 20 years of experience in the architecture, development, and security of dynamic, high-traffic web platforms.

Proven Technical Expertise: Comprehensive mastery, focused on PHP (WordPress, Laravel), MySQL, JavaScript, and HTML5/CSS3. Strong system administration and network security skills to ensure infrastructure integrity.

Project Leadership: I manage the complete lifecycle of web projects (from design to continuous optimization), consistently emphasizing performance, scalability, and robust security.

My Goal: To leverage an analytical approach and in-depth technical expertise to design innovative digital solutions that enhance the user experience and maximize operational efficiency.

SKILLS

PROJECT MANAGEMENT:

- End-to-end IT project management: Analysis, planning, execution and deployment.
- Tracking Tools: Familiarity with Jira and Trello.
- Documentation and Processes: Drafting procedures, user guides, technical reports, and adhering to security and confidentiality standards.
- ITIL Practices: Knowledge of ITIL practices.

MAIN DEVELOPMENT AND DATABASES

Backend :

- Laravel (Eloquent, Blade, Livewire, API REST).
- WordPress (custom theme & plugin development).
- MVC architecture, SOLID, Clean Code.
- Authentication, roles & permissions.

Frontend :

- HTML5, CSS3, SASS, Tailwind CSS, Bootstrap.
- JavaScript, Alpine.js, Vue.js (bases).
- Responsive & mobile-first integration.

Databases and servers :

- MySQL.
- Query & Performance Optimization.
- Linux, Nginx / Apache.

Tools & methods :

- Git, GitHub / GitLab.
- PHPUnit, functional tests.
- Technical SEO and web performance.

Additional Skills :

- Experience in developing and maintaining web applications.
- Experience using automation and scripting (PowerShell/CMD/Bash) to automate administrative tasks.
